I was born on August 22, 1994, and raised in Guimarães, Braga, Portugal.
I am passionate about music and spend much of my free time playing my instruments and producing my own songs. I also enjoy graphic design, cooking, good food and travelling.
I speak Portuguese natively and am fully proficient in English.
My main areas of technological interest include front-end web development, UI/UX design, design patterns and architectures, database management and distributed systems.
